PENDING USEF APPROVAL
DESERT INTERNATIONAL HORSE PARK | THERMAL, CA

QUITE SIMPLY,
we can't wait to get
back to showing at
the horse park.

The desert is beautiful, winter is around the corner, the facility is almost ready, we have a great competition planned...it's time to get going.

As you can imagine, there are a few things to cover as we prepare to launch our season. So here it goes.

1. We continue to invest in the horse park and the service we provide. With perhaps less fanfare than last summer, we continue to invest to improve your – and your horses' – experience at the horse park. We are always surprised by which improvements are most heralded, but collectively we think you'll see meaningful improvements everywhere you look.

A. Footing – We are scheduled to replace the footing in Hunter 5, 6 and 7, including its warm-up area, and in Jumper 2 warm-up. With this completed, the footing in all of the rings in the horse park will have been replaced. Needless to say, maintaining 1.6 million square feet of footing to the highest standard is a challenging task, and we continue to expand the resources and tools needed for this task.

B. Wash racks – We have expanded and upgraded the wash racks near Barn 1 and near Barns 15 and 17. With these completed, all of the wash racks have been upgraded at the horse park.

C. Food offerings – You'll find a host of new food outlets across from Jumper 2. We hope these outlets, which will include salads, a grill, and poke, will provide the right level of hospitality apart from VIP. You'll also see a roving cart offering complimentary refreshments every Friday, Saturday, and Sunday during all major circuits.

D. Parking – We will be offering an expanded shuttle service this season as well as a new reserved parking area behind barn 5. While parking will always be challenging, we hope these additions will continue to improve the options available.

E. Tents/stalls – This year we will complete the transition to clear span tents and 12x12 stalls. All of the stalls now offered will be 12x12 (except for a few supplemental tents located near barns 14/15 and barn 11 that provide stabling overflow capacity for these barns). We are proud that we offer the highest quality stabling of any facility around.

F. Landscaping – This is one challenge that will never end. But we continue to add trees and plants that increase the beauty of the horse park and to do our part for the environment.

G. Scoreboards – We have added permanent scoreboards/video boards in Hunter 1 and 2, Jumper 1, and on the grass field.

H. Grass, grass, and more grass – You'll find the grass keeps getting better. We are really pleased with the condition of the grass competition field. We also invested to improve the grass underneath the paddocks. And thanks to the generosity of one of our sponsors, we have added three acres of new grass for grazing and walking beyond the paddocks next to the schooling ring.

2. We have a very different schedule. At one level, the changes to our schedule are apparent: we have added a third week to Desert Holiday and a ninth week to Desert Circuit, with two off weeks instead of one. At another level, the more you look into the details of the schedule, the more changes you'll see. The reasons for these changes are complex, driven in large part by the USEF's decision to vacate the calendar and the need to build a competition that positions the horse park at the top of the sport. We encourage you to read the details to understand all of the changes that have been made, and we will be working hard to highlight the changes in our communication over the next several months.

Grass, grass, and more grass – You'll find the grass keeps getting better.

We are really pleased with the condition of the grass competition field. Plus three acres of new grass for grazing and walking beyond the paddocks next to the schooling ring.

A. More weeks – The redesign of our circuits started with the USEF’s decision to vacate the calendar for 2023 and to have significant input into the California show calendar. For example, USEF would not support four weeks in a row of competition. Therefore, by definition, the Desert Circuit schedule had to change. Since we could not offer a competitive winter circuit with only six weeks of competition and because the shows would be too big, after much discussion with USEF, we opted to expand to nine weeks with two off-weeks. Starting earlier with nine weeks offers a number of important advantages. It has more weeks operating during cooler months and allows us to run smaller shows as riders opt to spread out which weeks they compete. We are excited about the shift in Desert Circuit, though are aware it will take a few years for people to sort out their preference for when to attend. The addition of the extra week in December brings back a fan favorite. While small, the passion for the third week of Desert Holiday is huge, and allows us to run a boutique show, with most of the jumper program on the grass field. We think more weeks gives more choice, which is good, and allows people to rest their horses without feeling pressure to “miss out” on a competition.

B. An expanded high performance jumper program – Our high-performance jumper program is critical to us. The West Coast needs a robust program which challenges the very best riders while bringing along horses and riders as they approach the top level. Our program this year will consist of three levels: a greatly expanded FEI tier for those riders aspiring to compete globally, a strong national standard \$50,000 Grand Prix program with a series championship during Desert Circuit IX, and a new 1.40m \$30,000 program with a series championship during Desert Circuit IX. We are thrilled with how this program has evolved and we believe it gives the best opportunity for riders and horses to develop at the right pace with the right challenge over the entire winter season.

C. A commitment to Premier hunter – On December 1, the USEF/USHJA hunter classifications change to a three-tier system. At the top level is Premier. The number of Premier shows across the country has been reduced dramatically and each Premier show must offer and pay a minimum of \$75,000 in prize money. You’ll find that this shift has created fundamental changes in our competition schedule, most notably on Sundays when the Amateur Owner 3’3” and 3’6” Classics rise to \$10,000 competitions and the addition of an Amateur Owner 3’0” division with \$5,000 in prize money. With these, and a host of other changes added to the existing core elements in our Hunter program, such as our expansive USHJA National and International Derby series, we think we now have a hunter program that rivals any in the country. With 12 weeks of Premier Hunter shows, we think we stand alone in our commitment to hunter excellence.

D. More championships – We have expanded the number of formal championship events that occur at the horse park. These events include the Major League Show Jumping events, which now boasts a CSI 5* AA Grand Prix during DH II, the Onondarka Medal Finals during NSS II and the second \$100,000 WCHR West Coast Hunter Spectacular during NSS I (postponed from March). These are in addition to the existing events that we continue to invest in to make more special, including the CPHA Style of Riding Finals, the NCEA Medal Finals – West, our USHJA International Hunter Derby program, and the three weeks of WCHR we host.

E. An elevation of specialty classes - We believe that our specialty class program has been critical to creating a distinctive schedule and adding exciting new challenges for riders. This year we have elevated a number of these classes with the \$25,000 Pro Eq Challenge, the \$10,000 Hunter Team Challenge, the new 1.40m and National Standard Grand Prix series rider bonuses, and the addition of a 4-year-old young jumper class to add to our already strong young jumper and young hunter program.

3. Yes, we'll have a very different set of biosecurity plans in place. Over the last several months, we have been working closely with USEF, UC Davis, and the CDFA. We, like you, don't want to ever have an outbreak of EHV-1 again. And the odds are we won't. But it is not that simple, and hope is not a strategy. The objectives are clear; we need to prevent sick horses from coming to horse shows, we need to prevent horses from getting sick at a horse show, we need to find horses that do get sick at a horse show, and we need to isolate and treat horses that do get sick. In conjunction with USEF and the other major winter circuits, we will be implementing new biosecurity plans. Collectively, we believe this is the best starting path, though we are all still learning, and we will adapt as we go. These plans include:

A. New requirements for arrival - In advance of horses arriving at the horse park, owners/trainers will need to submit documentation that includes a health certificate as well as declarations on the health and status of each horse. These will be explained in more detail as we approach the start of the season but will be verified as horses arrive, prior to moving into stalls.

B. Monitoring procedures for horses on the property - We will be requiring temperature checks for horses on the property and owners/trainers will be required to report febrile horses. These horses will be tested and kept separate until confirmation of test results.

C. What to do if a horse gets sick - Rapid isolation and aggressive treatment are instrumental to preventing additional exposure and reducing the risk of EHM.

We believe that our specialty class program has been critical to creating a distinctive schedule and adding exciting new challenges for riders.

4. We will do our part, but need your help. We are a powerful community when we work together.

We operate a small city from November to March. And the safety of our community, both people and horses, depends on each other. We fully accept our responsibility and our role in making the horse park great and safe. But we need everyone to pitch in. Whether it is biosecurity, safe driving, protecting our youth, having our dogs on a leash, or quiet time in the barns at night, we can't - and don't want to - be a police force. We share a passion for our sport and that has to extend to each other. Please help us make the horse park an amazing and safe place to be.

At the outset, our objective was simple: create a great horse park.

5. Our aspiration is the same. At the outset, when we purchased the horse park, our objective was simple: create a great horse park. We described that there were three components; the physical facility, the hospitality, and the competition. While we will continually improve the physical facility, more of the changes from now on will be incremental. In short, the big stuff has been done. It is a huge task to keep it maintained and fresh, which we will do. And we learn each year the small things that need to be done. But the basics of our physical facility will be the same for the future. Our hospitality, and how our guests feel while here, is an area of focus for us now. It has many elements, from our food offerings to how we handle parking. We have a lot to improve here, and we are focused on it every single day. We certainly appreciate your input. This year, as described above, we are making a significant investment in the competition program. This investment involves as much money over time as the investment in the physical facility. There are lots of details involved in the three components. But it can be best described this way: we believe the West Coast needs a national/international destination for riders of all levels. We believe that Desert International Horse Park can be that destination that provides people on the West Coast the same opportunity to ride and compete that exists on the East Coast. Over time, we believe people from all over will want to compete here, even if just for a few weeks. There is nothing that makes us prouder than seeing the best riders in the world ride in a CSI5* event here, except perhaps seeing a seven-year-old on his/her pony collecting a first blue ribbon.

See you soon in the desert,

A handwritten signature in cursive script that reads "Steve".

VIII. **Team Challenge Format**

A. General

1. Scores will be tracked after each class is complete and be displayed throughout the day.
2. Awards presentation will immediately follow the conclusion of the Final Round.
3. Riders can complete their regular division classes as scheduled at the conclusion of the awards presentation.

B. Day One

1. Team Challenge classes will run concurrently with the horse show's regular division classes on the first day.
2. The 3' Children's and Adult Amateur Hunter, 2'6" Low Children's and Adult, and the Children's Pony Hunter will run as an overlay with the regular division.

C. Day Two

1. Under Saddle

- a. Each height section will have their own under saddle class: 3' Children's and Adult Amateur, 2'6" Low Child and Adult, and Children's Pony.
- b. All under saddle classes must be held at the beginning of Day Two prior to the Final Round.
- c. Each entry will be scored under an open numeric system 0-100.

2. Final Round Each entry will be scored under an open numeric system 0-100.

- a. Must be held immediately following the designated Hunter Team Challenge under saddle classes on Day Two.
- b. All teams are invited to compete in the Final Round.
- c. Each rider will compete over one Classic style round at their respective height.
- d. The Final Round will be placed as one section from 1st- 8th
- e. Each team's highest score from the Final Round will be doubled and added to their overall Team Scores. If a horse/rider combination from one of the top six teams is unable to compete in the Final Round for any reason, there will be no substitutions and the team will compete in the Final Round with only their available team members who competed on Day One.

D. Overall Team Champion

1. The Team Champion is the one with the highest Team Score after the Final Round.
2. If there is a tie for any top six overall team placing, the team with the highest combined score from the second over fences on Day One will break the tie. If the teams have the same combined score in the second over fences, then the highest pointed rider from each team will answer a tie-breaking question pulled from the USHJA Horsemanship Quiz Challenge Study Guide. Questions will be given by a horse show official and will be tailored to the level of each height section. If there are multiple riders with the same score on one team, then the Hunter Team Challenge Liaison will select the designated rider chosen to answer the question.

IX. The following Zone HOTY points will be awarded to each team member of the top 8 teams overall. Points to be awarded to each horse and rider combination's applicable section for the current competition year.

1st – 40 points	5th – 20 points

V. Hunter Team Challenge Liaison

The USHJA Hunter Team Challenge Liaison is not the coach or trainer of the teams. The Liaison is responsible to be the main point of contact, understand the Team Challenge rules and specifications, and provide communication between participants, trainers, horse show staff, and USHJA. The Liaison will be determined prior to the beginning of the Team Challenge and must meet the following criteria:

- A. Current member in a good standing with USHJA and USEF
- B. Be declared a professional
- C. Current Safe Sport Certified
- D. Attend Rider meeting at Event

The remaining riders will have their teams randomly drawn. USHJA has the final decision on the composition and combination of the teams.
- C. Teams will have designated colored arm bands, and the option to braid in colored yarn or other team spirit is encouraged and will not be penalized in the rider's regular division.
- D. A maximum of 16 riders per section to create a maximum of 12 total teams.
- E. **If a rider scratches after the team draw a four (4) rider team will become a three (3) rider team system, a three (3) team rider scratched spot will automatically receive zero points and be the drop off score.**

VII. Scoring

- A. A rider's Overall Score will be determined by adding together their **numerical score** received for their two over fences **classes** from their designated division on Day One **and their score from the Team Challenge under saddle class on Day Two**. Overall Scores will count toward their Team's score.
- B. Team Scores will be determined by adding each team member's Overall Score. Four-member teams will drop their lowest score. Three-member teams will drop the lowest score and double the second lowest score. This will ensure that all teams have the benefit of a dropped score.
- C. Final Team Scores for awards are determined by adding the Team Scores and **the score** from the team's highest rider from the Final Round.
- D. Judges will be required **to score all riders in an open numerical scoring system in each overlay class and the designated Hunter Team Challenge under saddle on Day Two.**

DESERT INTERNATIONAL HORSE PARK

CPHA STYLE OF RIDING JUMPER CHAMPIONSHIP - SOUTH

CLASS FEE: \$100 . **CLASS NUMBER:** 944

ELIGIBILITY - The CPHA Style of Riding Jumper Championship Class is open to all Jr/Am riders who are current members of the CPHA, and whose trainers are current members of the CPHA. The rider must have competed in at least one CPHA Style of Riding Class during the current show year in order to qualify for the Championship.

QUALIFYING PERIOD - All CPHA Style of Riding Classes held between December 1, 2021 and November 5, 2022, shall count toward the 2021 Championship.

CONDITIONS AND SPECIFICATIONS - This class is a Jumper Seat Equitation class with fences 1.00m-1.05m in height with spreads to 1.15m, under a Table II.2.a format. To be judged under the Open Numerical Scoring System. Any Jumping faults will be deducted from the numerical score (4 points deducted for each knockdown, 1 point deducted for each time fault).

The course must contain a triple or two double combinations and a Liverpool. The Liverpool may not be used in the combination. The course should be of the type used in a Children/Adult Jumper Classic.

Time allowed will be calculated at 350 meters per minute. When there is an equality of jumping/time faults then the judge's subjective style of riding score will break the tie. A rider must have no jumping or time faults as well as a judge's score of 75 or better to compete in the jump off round. The time allowed must be monitored for the first three riders that complete the course successfully, and adjusted if the judge deems necessary.

JUDGING - The class will be judged under a modified Table II, 2a format, jumping and time faults will be calculated, and a judge's subjective equitation score will be given. The judge's equitation score will break the tie for the riders who have an equality of faults in their jumping score. At the completion of the first round all riders with clear rounds (no jumping or time faults) AND a total score of 75 or better will come back to complete the jump off/work off shortened course.

The jump off/work off will be scored in the same manner as the first round, with an emphasis placed on an efficient time

saving pace and track. The judge's jump off score of the rider is added to their first round score and the rider with the highest cumulative score and the least faults is the winner. Time allowed will be based on a speed of 375m/m, in the Jump off round.

The judges are asked to walk the course when possible and where there are striding options, the judges are asked not to

penalize any option that might be used to achieve the best result appropriate to the track taken and the individual horse/rider combination. The judges will evaluate the rider's ability as a show jumping rider, and the manner in which the course was ridden regarding technical merit, judgment, and the execution of an efficient, time saving pace and track in meeting the specific challenges incorporated into the course by the course designer.

The open numerical scoring system will be used, and the judge's score will be announced after each round. The remaining placings for the class (competitors not participating in the jump off), will be determined by the rider with the least number of faults and the highest judge's score. (Basically scored as a jumper class, but the judge's score instead of the time breaks the tie when there is an equality of faults.)

START ORDER - Round 1 will be computer drawn, round 2 (The jump off round for clean rounds) will be from low to high from the Judge's score from the first round. Follow USEF Jumper Schooling Rules.

TACK & EQUIPMENT - A Jumper Type horse and conventional Jumper Equipment will not be penalized. A Standing or Running Martingale is permitted. Draw Reins, German Martingales or other non-conventional tack is NOT permitted.

RESTRICTIONS - USEF Jumper Schooling Rules will be in effect. There is to be no contact between the exhibitor and trainer with either the judges or the course designer prior to or at the conclusion of any round without a specified Technical Delegate or Show Steward present.

AWARDS - Trophy and Cooler to the winner, and Ribbons and Prizes 1-8.

SAFETY: Accidents Involving Competitors. GR1317. In the event of a head injury due to a fall/accident at a licensed competition, the competitor may be prohibited from further competition until released by medical personnel. In some cases, the competitor may not return to competition without a signed release from a licensed medical professional. The competitor may be placed on suspension by USEF until a release is provided. Competitors are advised to familiarize themselves with this rule.

PROTECTIVE HEADGEAR: It is compulsory for all persons at Federation licensed hunter, jumper or hunter/jumper competitions in all Hunter, Jumper and Hunt Seat Equitation classes, when mounted anywhere on the competition grounds, to wear properly fastened protective headgear which meets or exceeds ASTM (American Society for Testing and Materials)/SEI (Safety Equipment Institute) standards for equestrian use and carries the SEI tag. It must be properly fitted with harness secured. It is the responsibility of the rider, or the parent or guardian or trainer of the junior exhibitor to see to it that the headgear worn complies with appropriate safety standards for protective headgear intended for equestrian use, and is properly fitted and in good condition, and the Federation, Show Committee and Licensed Official are not responsible for checking headgear worn for such compliance. GR 801.2.7.

MOTORIZED VEHICLES AND GOLF CARTS: Minors who do not have a valid driver's license which allows them to operate a motorized vehicle in the state in which they reside will not be permitted to operate a motorized vehicle of any kind, including, but not limited to, golf carts, motorcycles, scooters, or farm utility vehicles, on the competition grounds of licensed competitions. Minors who have a valid temporary license may operate the above described motorized vehicles as long as they are accompanied by an adult with a valid driver's license. The parent/legal guardian or individual who signs the entry blank as a parent or guardian of a minor operating a motorized vehicle in violation of this rule are solely responsible for any damages, claims, losses or actions resulting from that operation. Violations of this rule will be cause for penalties against those responsible for the child committing the offense. Wheelchairs and other mobility assistance devices for individuals with disabilities are

The unsafe use of personal electronic transport devices, as determined by the competition officials and management in their sole discretion, that do not require a driver's license to operate, including but not limited to segways, hover boards, and single wheeled scooters is prohibited on competition grounds. Operating such devices in areas where people gather may be deemed "unsafe use" if there is a risk of harm to others. If the operator of the device is a minor, the parent/legal guardian or individual who signs the entry blank as a parent or guardian of a minor operating the device in violation of this rule is accountable and may be subject to penalties. Wheelchairs and other mobility assistance devices for individuals with disabilities are exempt from this rule. **Only motorized vehicles in proper working condition are allowed to operate on property. ANY vehicle without proper headlights is not allowed to operate before sunrise and after sunset.**
